

VSC Solutions supports the **SOS Children's Village**

Super Group's company VSC Solutions has been supporting the SOS Children's Village in Ennerdale since 2012, sponsoring a house of 10 children. Since then, they have been honoured to watch these little children become young adults.

In addition to the house sponsorship, VSC staff and their families have participated in numerous events organised over the years, allowing the children to interact and build social relationships.

In December 2021, the VSC team organised a food truck to provide a catered lunch for the entire village. They also filled 100 Christmas stockings with small gifts and delicious goodies and provided t-shirts and caps for the kids. The team also ensures that the children celebrate other special occasions, such as birthdays by providing meals and gifts and ensuring that they have stationery at the start of the school year.

SOS Children's Villages supports vulnerable children, as well as fragmented families. When a child loses everything, SOS Children's Villages is there to give them a home, a mother and a family. Currently, the Ennerdale village has 13 houses in operation, cares for 95 children and employs 17 care givers and 10 admin staff.
